Dear Sisters in Christ,

With thanksgiving to God we express our sincere appreciation for your important support of Lutheran Brethren International Mission this past year. Thank you on behalf of the entire International Mission family and especially our women in ministry.

This past year (2009-10) you graciously gave \$4,700 so that Kirsten Holzner (Chad) and Kris Larsen (Taiwan) had adequate child care support so that they could do language learning.

Thank you for your faithful, prayerful support of your missionary women in ministry in Chad, China, Japan, and Taiwan. They are touching lives for Christ in cross-cultural settings. May God richly bless you in return for your important ministry to these women.

Serving together,

Matthew Rogness

**Lutheran Brethren International Mission Proposes Your 2010-2011 Project  
Child Care for Mothers in Language Study - \$4,000**

We present the need to help with the costs associated with Rachel Venberg receiving French language schooling and Kris Larsen continuing Hakka language learning. The one specific thing that helps women in language learning is the provision of adequate child care and/or schooling for their children which in turn frees them to concentrate on their learning.
